

YourHealth247

Begin using on-demand GP medical consultations, delivered by a team of specialists at **Teladoc Health**.

- Offers convenience and peace of mind, from the comfort of your own home at a time that suits you
- General Medical Advice on conditions such as cold/flu symptoms, headache, stomach discomfort and rash
- No further cost to you or your dependants
- No need to travel, take time off work and save unnecessary outpatient visits and medication
- No time limit on call-back consultations . This means our doctors have time to listen and focus on your health needs
- Available when your doctor is not – 24/7, 365

If you are experiencing a medical emergency, please contact the emergency services.

“I feel extremely lucky to have this resource available, especially with my local health services so over-stretched. It was truly relieving to gain access to the right medications at a worrying time.”

- VIRTUAL DOCTOR SERVICE USER

55% of patients stayed at home after speaking to our doctors

96% of patients would recommend the service
