

Healix

Gender dysphoria benefits

Gender dysphoria

Gender incongruence is defined as the mismatch an individual feels as a result of the discrepancy experienced between their gender identity and the gender they were assigned at birth ⁽²⁾. This condition can cause significant emotional distress in which case it is known as gender dysphoria.

At Healix we are able to offer bespoke healthcare benefits to assist you in providing support to all your employees when it matters most, which is why we have developed a proposition to help support

It is estimated that approximately 0.5 to 1.3% of the UK population has some form of gender variance⁽¹⁾.

individuals experiencing gender dysphoria to be able to access both mental health and surgical services.
