

Flu and COVID Vaccination Services 2026

In preparation for the 2026 flu season, protecting the health and well-being of your employees is more important than ever. Our flu vaccination programme offers a simple and effective way to safeguard your workforce, reduce time off for illness, and maintain productivity. By providing convenient on-site vaccinations or vouchers for local pharmacies, we help ensure your employees stay healthy and protected throughout the flu season, strengthening the resilience of your organisation.

Introducing our client vaccination programme

We're pleased to provide flu and COVID vaccination programmes for you and your teams, delivered in partnership with our trusted provider Flu-Xpress.

For convenience, your employees can take advantage of our flu vaccinations through:

Tailor your booking system to the requirements of your organisation

- You'll receive an admin login which enables you to track the uptake of appointments.
- There is no portal set-up fee, and it can be branded to your requirements.
- The system has been penetration (PEN) tested against system vulnerabilities to cyber-attacks, and we will provide you with a certificate at your request.
- You can also customise the system by adding additional text or fields to the portal/notifications.

How can your employees book an onsite appointment?

- They can book their appointments via an online booking system for onsite vaccinations, a simple and user-friendly portal.
- The system is GDPR compliant, and the only employee information required is their name and work email address.
- When an employee logs onto the booking system, they will be able to search by postcode for their nearest participating pharmacies.

Digital PAYG vouchers

You can choose to only pay for flu vaccinations when employees redeem at their chosen pharmacy. This means that the charge is only generated when an employee attends a pharmacy and receives the flu vaccination or, you can pay per download.

	Price
Cost of PAYG digital vouchers	£25.15
Cost of digital pay per download	£19.20

Features of this vaccination access option:

- Our eco-friendly digital vouchers are paper-free and easy to use.
- They are accepted in almost 3,000 outlets including Tesco, ASDA pharmacies, Well Pharmacies (formally The Co-op), Morrisons, and many other smaller independents, making your people's flu vaccination journey accessible and stress-free.
- There is no limit on how many of your employees can request the digital voucher and the portal even allows requests beyond your original estimated take-up.
- Digital pay per download cannot track redemption rates, meaning you won't know of those paid for have been used.

How can your employees book using their digital voucher?

- Employees can access the booking system via logging in to the online portal using their work email address.
- The portal shows your organisation's designated coordinator how many digital vouchers have been requested and redeemed, so it's easy to monitor spend.
- Employees who are eligible on the NHS can be restricted from being able to download a voucher and signposted to obtain from their GP.

Pre-paid flu vouchers

Pay upfront for easier distribution and effective budget management.

	Price
Cost of pre-paid digital vouchers	£14.35

Features of this vaccination access option:

- Your organisation's pre-paid flu vouchers are non-refundable but help with budgeting as you know the exact amount allocated for employee uptake.
- While you cannot determine how many of the vouchers will be used, they are significantly cheaper per voucher.

How can your employees book using their pre-paid voucher?

- Employees can easily request their vouchers via the portal.

On-site clinics

On-site clinics eliminate the need for employees to travel to external locations, making it easier for them to get vaccinated during work hours.

Features of this vaccination access option:

- On-site clinics are a good option for larger organisations that have higher employee numbers onsite.
- By providing vaccinations at the workplace, organisations can boost participation rates.
- It only takes four minutes per flu/COVID vaccination.

Flu vaccination	Price
Price per standard Trivalent flu vaccine	£13.15
Price per egg allergy vaccine	£24.00
Covid vaccination	
Moderna- Spikevax	£90
Pfizer- Comirnaty	£58.80
Half-day clinic nurse on site (max 60 vaccines)	£596
Full-day nurse on site (max 120 vaccines)	£1056
Additional charges may apply for out-of-hours and shift work (<7am or >7pm)	

Example:

Site 1 whole day administering x 120 flu vaccines is **£2618**

Deposit and clinic confirmation form

Expenses may be added to the booking price, and both the deposit and the clinic confirmation form will be completed alongside your formal flu programme agreement. To secure your booking, we will ask you to fill out a Clinic Confirmation Form to provide the address, site coordinator's contact information, parking arrangements, and on-site facilities.

Protect your people

Implementing a vaccination programme for your employees brings numerous advantages, including enhanced overall workplace health and safety. By facilitating easy access to vaccinations, you empower your team to take proactive steps in protecting themselves and their families. This initiative can lead to decreased healthcare costs for your organisation, as fewer employees will require medical treatment for flu or COVID related illnesses. Furthermore, a healthier workforce contributes to improved productivity and morale, helping to create a positive workplace culture where employees feel valued and cared for.
