

Personalised cancer support, for every stage of your journey

Available from day one of your Healix Health scheme, our digital cancer services gives you quick access to personalised, holistic care from experienced clinicians.

Whether you're taking proactive steps to reduce your cancer risk, managing symptoms, recovering from treatment, or supporting a loved one, we're here to help you feel informed, empowered and cared for.

When can you use our cancer care service?

If you're looking to understand and reduce your cancer risk.

If you're worried about symptoms and want expert reassurance.

If you're interested in screening and want to know what your options are.

If you've recently received a diagnosis and are looking for complementary, expert support.

If you need help managing treatment side effects or recovery

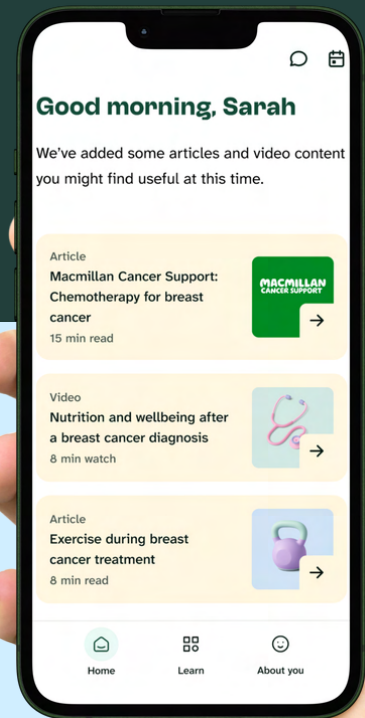

If you're looking for emotional or psychological guidance alongside clinical care

If you're caring for someone with cancer and need support or advice

If you're seeking whole-person care – physical, emotional, and practical – from experienced professionals

What's included?

- ✓ Immediate access – available from day one of your Healix Health scheme, with no referral needed
- ✓ Digital prevention & risk assessment tools – understand your personal cancer risk and get evidence-based lifestyle advice
- ✓ One-to-one support – virtual appointments with oncology nurses, psychologists, dietitians, physiotherapists and more
- ✓ Dedicated cancer nurse specialist – your consistent guide, offering continuity and expert care every step of the way
- ✓ Personalised care plans – tailored to your needs, whether prevention, treatment or recovery
- ✓ Fast, secure and convenient – fully confidential, high-quality care from the comfort of your home without long waits or complex referrals
- ✓ Access to over 20+ support types – including physical rehabilitation, psychological care, menopause support and nutritional guidance
- ✓ On-demand expert content – videos, articles and tools covering nutrition, sleep, body image, exercise, work and more
- ✓ Cancer carer support – practical tools and emotional advice for those supporting someone with cancer

Take control of your cancer care – with expert support at every stage

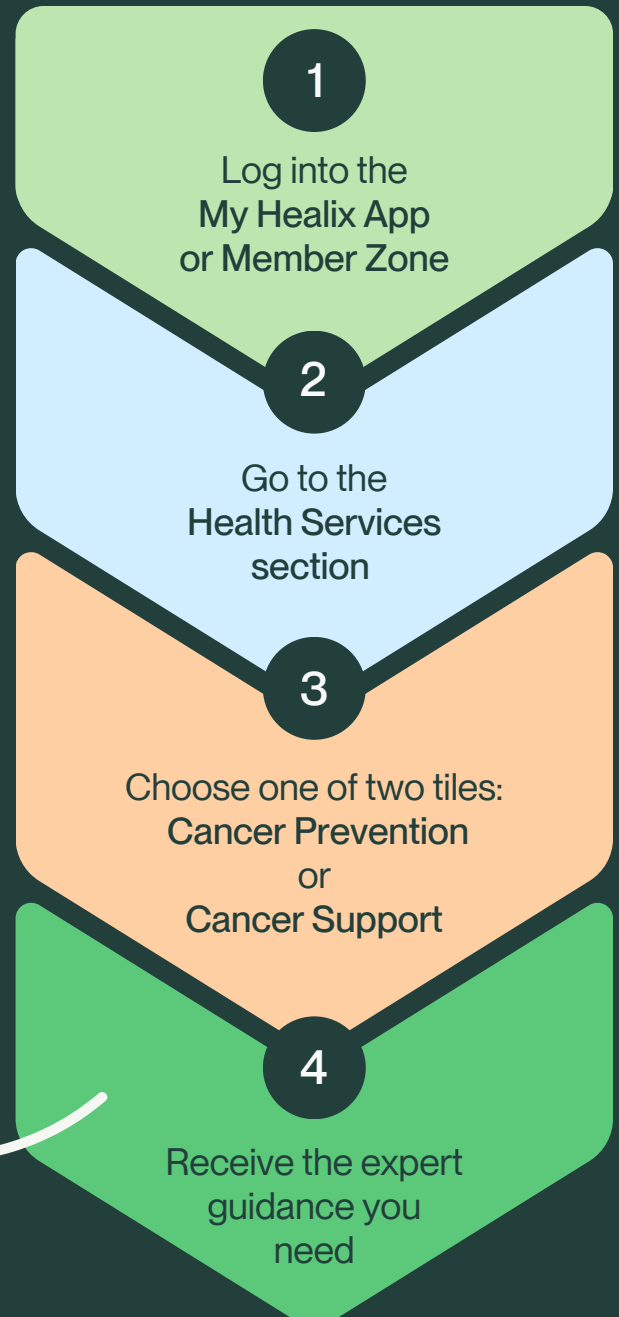

Such a privilege to have had access to what should be part of every cancer patient's rehabilitation. My CNS was able to assess my needs and put me in touch with experts such as physiotherapists, mindfulness coach, a menopause expert, nutritionist and psychotherapist. Each element complemented the other. Where else would you be able to get such incredible support, all virtually and all aligned?
