

Trusted GP care, anytime, anywhere

Available from day one of your Healix Health scheme, our virtual GP service makes it easy to get the support you need, when and where you need it.

There's no waiting and no hassle – just expert guidance, 24/7. Either by phone or video call, you choose.

When can you use our virtual GP service?

When you need fast access to medical advice without waiting for your local GP

If you're managing a long-term condition and want ongoing support

If you want more control over your time with flexible 15-minute booking windows

If you want round-the-clock support from the moment your Healix Health scheme starts

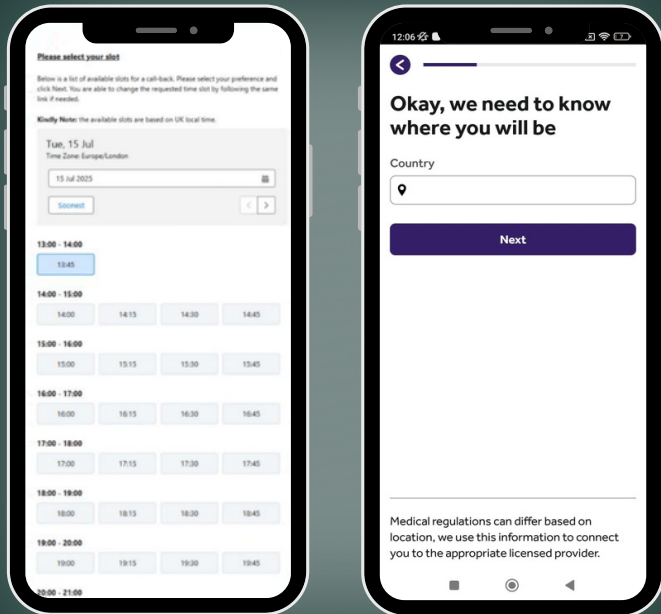

What's included?

- ✓ GP consultations – speak to a UK based GP by phone or video
- ✓ Expert medical opinions – access second opinions from a global network of clinicians on referral by your virtual GP
- ✓ Chronic condition support – get help managing ongoing health issues
- ✓ Lifestyle care – support for smoking cessation, nutrition and fitness
- ✓ Prescriptions - sent directly to you for delivery or collection. Please note prescription charges aren't included
- ✓ Doctors' notes – provided where appropriate

Take control of your health, wherever you are.

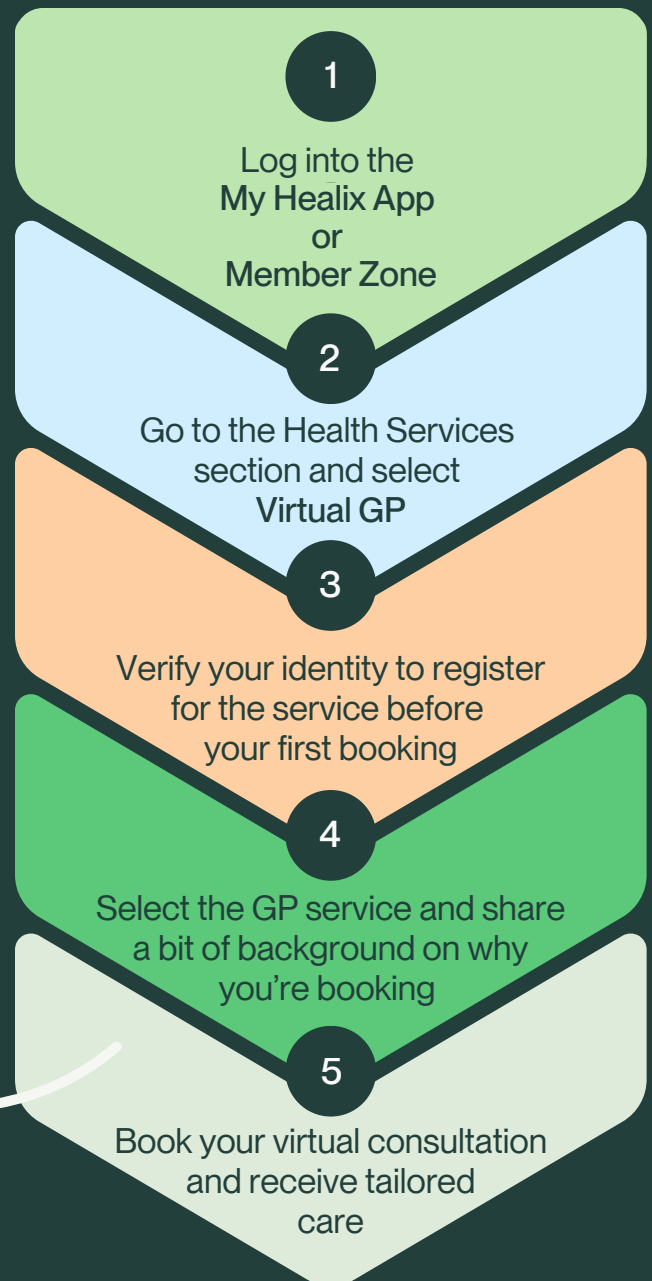

How do I get started?

Remember: you'll need to register for the service before booking your first consultation

I can't praise that GP I spoke to enough for being so caring and kind. My consultation was lifesaving. I was hours away from multiple organ failure
